Mindshifting — For better lives

The Dean's Open Innovation Challenge asked participants to explore how data and technology could contribute to wellbeing,

work-life balance and mental health.

RESULT

03 FINALIST / 3RD PLACE

02 / THE IDEA

ARCHIVE INTERPRETATION / ACTIVE

ORIGINAL ARTIFACT

InnerShift

Mindshift in VII days

InnerShift was conceived as a seven-day experience designed to encourage people to actively participate in their own lives rather than remain passive bystanders.

ACTIVE PARTICIPATION

COMMUNITY OF SEEKERS

VII-DAY RITUAL

NON-PERFECT MERGE / 87%

03 / VII DAY RITUAL

SELECT A DAY

InnerShift — VII day ritual

Seven small interventions designed to break the loop, redirect attention and make participation tangible.

04 / CONTRIBUTION

PERSONAL RECORD

01

TEAM LEADERSHIP

Coordinated the team and helped organize the development of the project.

02

PRESENTATION DEVELOPMENT

Developed the final PowerPoint presentation from the initial Canva draft.

03

PRESENTATION COACHING

Prepared team members for the public presentation, including guidance on delivery and public speaking.

04

PUBLIC REPRESENTATION

Represented the team during the final presentation and helped communicate the project to the audience.

05 / SYSTEM

DIGITAL + TANGIBLE

DIGITAL

Personalized VII-day path

A personalized journey based on the participant's application.

Community-created challenges

Challenges could continue beyond Day VII through community participation.

TANGIBLE

Physical board game

A physical version with a base game and potential expansions.

MERGE NOTE

The archive retains the project language, while the original artifact retains its visual grammar.

06 / FIELD NOTE

OBSERVATION

OBS_001

The team felt the project received particularly strong engagement from the audience during the presentation.

UNVERIFIED / PERSONAL OBSERVATION

07 / SOURCE MATERIAL

RECOVERED ARTIFACTS

SELECTED MATERIAL

The original record bleeds through.

Selected material recovered from the original project presentation. Each artifact opens the source layer without leaving the archive.

</DATA> with PURPOSE SUMMIT

State of drift

Dark side of technology

Statistic

according to WHO

11% of teens show **addiction-like** patterns in social media behavior**36%** stay online almost all day, unable to **disconnect**

Problems

according to WHO and Cureus

Dopamine overdrive → numbness, restlessness, disconnection

Screens lower emotional well-being.

Overuse impairs goal-setting and long-term focus.
